

RHINO

HYDRAULIC 180° GATE CLOSER

LOCINOX

Let's make better fences together

TURN YOUR LOCINOX 180°
HINGE INTO A SELF-
CLOSING SOLUTION

Rhino is perfectly suitable for assembly on Locinox 180° hinges with movable eyebolt. The assembly of this high quality gate closer is very simple thanks to the physical coupling to the Locinox hinge - the correct alignment of the gate closer becomes thus unnecessary. Both closing speed and final snap are easily adjustable guaranteeing full flexibility and a perfect functioning in all possible weather conditions.
